This book is grounded in the latest research on moral development and offers practical strategies for creating a classroom environment that is conducive to ethical thinking. The author, Dr. Nancy E. King, is a leading expert in the field of moral education and has spent decades working with educators to develop innovative ways to teach about ethics.

Teaching and the Moral Imagination is divided into three parts. Part One provides an overview of the moral development process and discusses the different factors that influence moral behavior. Part Two offers practical strategies for teaching about ethics in the classroom. Part Three provides examples of how educators can use the moral imagination to address real-world problems.

Teaching and the Moral Imagination is an essential resource for educators who want to inspire ethical thinking and action in their students. This book provides the tools and knowledge that educators need to create a classroom environment where students can thrive both academically and morally.
