The World Congress on Engineering (WCE) is an annual conference that brings together leading engineers and researchers from around the world. The WCE 2024 will be held in London, UK, from July 1st to 4th, 2024.

The TET is the official journal of the WCE. The journal will publish a special issue featuring the best papers presented at the WCE 2024.

Scope of the Journal

The TET publishes original research articles in all areas of engineering, including:

* Mechanical engineering * Civil engineering * Electrical engineering * Computer engineering * Chemical engineering * Materials science and engineering * Biomedical engineering * Aerospace engineering * Nuclear engineering * Industrial engineering

The journal is particularly interested in papers that report on new and innovative research findings that have the potential to make a significant contribution to the field of engineering.

Submission Guidelines

Authors are invited to submit original research articles to the TET. All submissions must be made through the journal's online submission system.

The submission guidelines can be found on the journal's website:

<https://www.tet.org/submissions/>

Publication Process

All submitted papers are subject to a rigorous peer-review process. The peer-review process is managed by the journal's editorial board.

The editorial board is composed of leading engineers and researchers from around the world. The editorial board is responsible for ensuring that the journal publishes high-quality research articles that make a significant contribution to the field of engineering.

The publication process typically takes 6-8 months.

Benefits of Publishing in the TET

There are many benefits to publishing in the TET, including:

* Your paper will be published in a high-quality, peer-reviewed journal. * Your paper will be indexed in major databases and will reach a global audience. * Your paper will have a high impact factor, which will help to increase your citations and visibility. * You will be able to present your paper at the WCE 2024, which will give you the opportunity to network with leading engineers and researchers from around the world.

The TET is a leading open access journal that publishes original research articles in all areas of engineering. The journal is indexed in major databases and has a high impact factor. The WCE 2024 will be held in London, UK, from July 1st to 4th, 2024. The TET will publish a special issue featuring the best papers presented at the WCE 2024.

Authors are invited to submit original research articles to the TET. All submissions must be made through the journal's online submission system.
