In a world grappling with unprecedented challenges, the interplay between gender and crisis has emerged as a crucial yet often overlooked dimension of global politics. 'Gender and Crisis in Global Politics' is a groundbreaking work that delves into this intricate relationship, shedding light on the multifaceted ways in which gender shapes and is shaped by international crises.

## **Gendering Crises: A Multifaceted Lens**

The book challenges traditional understandings of crises by exploring how gendered norms, roles, and identities influence how crises are perceived, experienced, and responded to. It argues that crises are not gender-neutral events but rather gendered processes that disproportionately affect women, girls, and non-binary individuals.

Through case studies ranging from the Global Financial Crisis to the COVID-19 pandemic and the ongoing refugee crisis, the book demonstrates how gendered biases and inequalities exacerbate the impact of crises on vulnerable populations. It also highlights the crucial role of women and gender-diverse individuals in crisis response and recovery.

## **Crises as Catalysts for Gender Transformation**

'Gender and Crisis in Global Politics' goes beyond merely documenting the impact of gender on crises. It also explores the transformative potential of crises to challenge gender norms and promote gender equality. The book argues that crises can create opportunities for rethinking traditional gender roles and for advancing social justice.

By examining examples of successful gender-responsive crisis response and recovery efforts, the book provides a roadmap for policymakers and practitioners to mitigate the negative impact of crises on gender equality and to harness their potential for positive transformation.

## **A Call for Gender-Inclusive Global Politics**

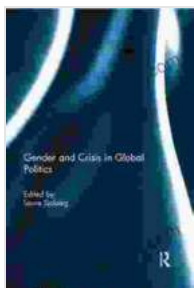

The book concludes with a powerful call for a gender-inclusive approach to global politics. It argues that gender should be central to all aspects of international relations, from crisis prevention and response to

peacebuilding and development. Only by mainstreaming gender into global politics can we hope to create a more just and equitable world for all.

'Gender and Crisis in Global Politics' is an essential read for scholars, policymakers, and anyone interested in understanding the complex relationship between gender and crisis. It is a timely and important contribution to the field of gender studies and international relations that will undoubtedly shape future research and policymaking.
